CLASSIFICATION: INTERNAL

- [09:15] @david.park Team standup - quick updates please
- [09:16] @jennifer.lee Working on the macro model revision. Should have updated GDP forecasts by EOD. Nothing material yet, just refining seasonal adjustments.
- [09:17] @mark.wilson I've been reviewing the healthcare sector. Found some interesting public data from CMS on Medicare spending trends. Will circulate a summary this afternoon.
- [09:18] @david.park Good. @mark.wilson please make sure to flag anything that could be construed as MNPI before sharing broadly. We had an issue last quarter.
- [09:19] @mark.wilson Understood. Everything I'm working with is from public CMS databases and published academic papers. All clean.
- [09:20] @jennifer.lee Also reminder - the quarterly investment committee meeting is Thursday at 2pm. Room 4B. Agenda went out yesterday.
- [09:21] @david.park Thanks all. @jennifer.lee can you also prepare a brief on the inflation expectations model? I want to present it at IC.
- [09:22] @jennifer.lee Will do. I'll have it ready by Wednesday EOD for your review.
- [09:23] @david.park Perfect. Let's keep things moving. Have a productive day everyone.
